

CANCER:

What Is It and Can It Be Reversed?

By Rich Aydelott MT.TPM, T.NLP, MASTER COACH AND HOLISTIC WELLNESS PRACTITIONER

What if answers to Cancer and many other Illness and Diseases have already been found? And what if not just once, but many times, by many different Doctors, Scientists, Inventors and Researchers? What if the answers are simpler than we have been told? Sadly, few will believe what is written here...

In 1966, Dr. Otto Warburg, while addressing a convention of Nobel Laureates stated, *"But nobody can say that one does not know what cancer and its prime cause to be. On the contrary, **there is no disease whose prime cause is better known**, so that today ignorance is no longer an excuse that one cannot do more about prevention."* Dr. Warburg went on to say, *'the body of scientific knowledge and its application is being inhibited, ... and millions are dying unnecessarily every year because of it.'* Dr. Warburg won the Nobel Prize in Medicine in 1931 for discovering the cause of Cancer.

What Is Cancer?

Simply put, **Cancer is a viral infection brought about by toxic and acidic cellular environment.** Less simply, Cancer is the label given to dysfunctioning cells. These cells begin mutating and multiplying and we call this Cancer. Cancer is actually a survival mechanism of the body to prolong its life by trying to buy enough time for the body to find the resources it needs to heal. Cancer exists within our bodies much of the time and it is only when our immune system is overwhelmed that it begins growing and spreading. A Strong Immune System is our Best Defense!

What Causes Cancer?

Basically, Cancer is an "environmental" issue of the body. When our immune system becomes overloaded from the absence of good nutrition, too much acidity, too many toxins, and parasites, and the localized environment of the body becomes too acidic, and normally healthy cells mutate. We call this Cancer.

Has Anyone Reversed Cancer?

Cancer is and has been reversible for millennia. Both Chinese and Ayurvedic medicines, known for thousands of years have routinely reversed cancer and virtually every other illness and disease. Unfortunately, Cancer, as we believe it to be, is not the real problem...

Solving the Problem...

Engineering 101: First: Accurately Define the Problem. Next: Find the Cause of the Defined Problem. Then: Reverse the Cause to Find the Solution. Now: Simply apply the Solution to Resolve the Problem.

To solve a problem, First, we need to discover what the problem is... after all, how can we fix something we do not understand? Second, we have to find the 'Cause' or what is 'Supporting' the problem to exist in the first place... and Third, we simply 'Reverse the Cause'... When we are able to Stop or Reverse the Cause, we now have the Solution, and once we have the solution, the problem can never be a problem anymore...

Using this logic, Dr. Lorain Day healed herself of aggressive cancer without using Chemotherapy or Radiation. Dr. Day said, *"In order to heal, we must reverse the cause!"* Further, *"Cancer is not caused by a deficiency of Chemotherapy, Radiation or Surgery."* and, *"Breast Cancer is not caused by a*

woman having too many breasts! ~ Dr Lorain Day, Chief of Orthopedic Surgery; Associate Professor and Vice Chairman of the Dept. of Orthopedic Surgery at University of California, San Francisco.

What is the Real Problem?

“You see, there's no money in healthy people, and there's no money in dead people. The money is in the middle: people who are alive, sort of, but with one or more chronic conditions that puts them in need of Celebrex, or Nasinex, or Valtrex, or Lunesta.”

~ Bill Maher

If ways for reversing Cancer are out there as we are saying, then why aren't they on the 6:00 News? What if "Managing Symptoms" is much, much more Profitable than Finding Cures?

Robert Beck Ph.D, a physicist who worked for the United States Government, said about our Allopathic Medical System, *“A Patient Cured is a Customer Lost!”*

Dr. Beck created what is now known as the Beck Protocol which comprises four healing technologies. He used these technologies to heal himself from all of his life threatening conditions 'after' the Medical Doctors had given up on him and sent him home to die... As a gift to the world, Dr. Beck freely published the schematics of these technologies to the Internet so the answers he found can help as many as possible and these technologies can never be lost...

This all starts making sense when we realize the international 'Disease Industry' makes Trillions of dollars per year by managing the symptoms rather than by finding the cures... Just the profit on patented pharmaceuticals often exceeds 50,000%. This equates to pills costing a fraction of a penny to make being sold to us for \$5.00 or more! Why do you think we have Pharmacies on every street corner? Have you ever wondered why U.S. healthcare is ranked less than 50th in the world... Ever wonder how much Pharmaceutical companies actually invest in TV Advertising and Medical Universities?

Cancer Explained...

Cancer is a Survival Strategy of our Body... *“Cancer is only the terminal stage of a long process. Cancer is the body's healthy attempt to isolate toxins ingested and accumulated through years of eating the modern unnatural diet and living in an artificial environment. Cancer is the body's last drastic effect to prolong life, even for a few more months or years,”* ~ Michio Kushi, author of book “The Cancer Prevention Diet” and pioneer of Macrobiotics.

“Cancer is Acidosis Induced Hypoxia.” ~ Dr. Otto Warburg

In 1931, (over 85 years ago), Dr. Otto Warburg won the Nobel Prize in Medicine for discovering what Cancer is, what causes it, and therefor how to reverse it... Dr. Warburg said, "Cancer is caused by *Acidosis Induced Hypoxia*” This means, "Acidosis" is 'Too Much Acid,' "Induced" means 'Causes,' and "Hypoxia" is 'Too Little Oxygen.' We now realize: “Too Much Acid Causes Too Little Oxygen!”

Dr. Warburg discovered that when the cells become too acidic, they no longer have enough Oxygen to function properly and their metabolism changes. Healthy cells create energy by combining Oxygen and Sugars. This is similar to the air – fuel mixture in a car; without enough enough Oxygen the engine 'dies' and can no longer function...

Our cells have a built in survival mechanism keeping them alive long enough for the body to restore the oxygen. If deprived of oxygen for too long these cells can become mutated, stop dying and become what we call Cancer. Dr. Warburg also found that when proper amounts of Oxygen are restored to the cells, these changed or mutated cells can heal. (Please Do read this paragraph again...)

So Where Are the Cures?

In 1934, Dr. Royal Raymond Rife demonstrated a 100% reversal (Cure) rate on 16 terminally ill Cancer and Tuberculosis patients the medical community had given up on. Doctors said there was nothing left that they could do. These patients were completely healthy in just 90 to 120 days with No Side Effects. While this was front page news in the San Diego Evening Tribune, what did Dr. Rife get for his many years of sacrifice and his gift to the world? His equipment was smashed and he was shut down by Lawrence Fishbein Director of the AMA!

In 1966, Dr. Otto Warburg, while addressing a convention of Nobel Laureates stated, *"But nobody can say that one does not know what Cancer and its prime cause to be. On the contrary, **there is no disease whose prime cause is better known**, so that today ignorance is no longer an excuse that one cannot do more about prevention. "*

Dr. Warburg went on to say, *'the body of scientific knowledge and its application is being inhibited, ... and that millions are dying unnecessarily every year because of it. '*

Dr. T. Colin Campbell discovered tens of thousands of direct connections and correlations between the quality of our food and our health in the largest nutritional study ever conducted in the world. Millions of people were studied over decades.

Dr Campbell said, *"The answer to the American Health Crisis is 'the food' that each of us choose to put into our mouths each day. It is a simple as that. "* T. Colin Campbell - Author of The China Study.

What Does This Mean For Us?

This means, if we are going to get and stay healthy, "WE" all have to learn 'what' we can do and 'how' we can do it... Everything is much easier when we know how... The first step is becoming aware... The next step is in finding sources you trust to guide you. When we realize how many resources there are available for us, two things happen... First, we are relieved we found the answers; Second, we get angry and Third, we grieve the senseless loss of all the loved ones we have lost for no other reason than greed and control.

So How Do We "Reverse" Cancer? (We are not allowed to use the term "Cure")

First, we educate ourselves as to what Cancer really is and what we can do about it. Second, we stop putting into our bodies the substances that cause and support Cancer. Third, we clean out the accumulated toxins and parasites, etc. overloading our immune system. Fourth, we rebuild our immune system and our bodies back to health. Fifth and just as important, we learn to resolve our negative emotional past and begin creating our positive outcomes and the life of our dreams. This is our mission and it is easier than it seems and is well worth the journey!

50 Doctors Dead!

In an article on the mysterious deaths of 50 holistic doctors within a years time-frame dated March 12 of 2016 by Erin Elizabeth. Erin is a well respected researcher and she is looking into possible connections which may be their research into GcMAF, CBD and/or possibly other effective treatments. Many were known for successfully treating and reversing (curing) many forms of life-threatening illness and disease...

Here's the link to the story so you can draw your own conclusions,,,

Conclusion:

Effective answers are out there and are available for those willing to find and use them. There are many of us who are willing to teach those who are willing to learn how to heal themselves... The quality of our lives and our longevity may come down to our open-mindedness and our willingness to search outside “standard accepted practices” and look for what really works. Remember: You Are Your Best Investment! The quality of your life is in your hands.
